Overview

Check out this remarkable acreage with a wonderful mix of pasture, large timber, a metal shop, 3 story brick home, a massive pond, a spring, and highway frontage. Yes, you read that right all of this is on one property and just minutes from Harrison, AR, and Branson, MO. The property is being sold as-is. This estate is ready for you to come in and run with your imagination. The vintage feel and theme throughout the home has a funky and very cool vibe, and with some vision, this place could be really special. The centerpiece of the spacious home is the massive cylindrical brick fireplace that towers from the basement all the way to the upper level. The basement has 2 garage doors, a large safe room, the wood stove that feeds the fireplace, and the mechanical equipment. The second main level is complete with a kitchen/dining space with a wall oven, stainless refrigerator, disposal, exposed beams, and more. There is also a roomy living area, bedroom, bathroom, and laundry room on this level. The staircase is wrapped around the brick centerpiece as you make your way to the upper level.
