Overview

This newer-built, contemporary Plan 502 in the heart of Toscana Country Club sits on an oversized homesite surrounded by lush landscaping for the perfect desert oasis atmosphere. Highlights of this luxurious home include a custom pool and spa in the sideyard, soaring pocket doors that blend indoor-outdoor living spaces, three-sided wetbar with butted glass for additional light and views, modern light fixtures, and other details including pops of color and textured wallpaper. The spacious great room flows from the stackstone fireplace through dining and into the gourmet kitchen. This chef's dream includes plenty of white shaker cabinetry, a modern statement-piece hood, quartz countertops that run up the wall for a full backsplash, peninsula breakfast bar, and stainless steel Sub Zero Wolf appliances. Relax in the primary bedroom that features a resort-like en-suite bath, complete with dual sinks, walk-in shower, and freestanding soaking tub. Guests can relax in the main home guest room with en-suite bath, or the guest house with private access from the courtyard.
