Overview

Live off the grid or build in style. You'll be 150' from the Middle Fork Payette River and have a natural spring running through your property! This is your slice of Idaho wilderness yet only 10 minutes to the closest town. Hunt from your property (deer, elk, moose, wild turkey, bear), fish in the river, or drive ten minutes to Terrace Lakes for some golf and regular events. The County is approving the homesite to have an ADU with it. There are two cleared and leveled homesites ready for you. All building permits are available and property markers are visible. Above ground electricity is present. An adjacent property of 8.14 acres can be sold together or separately. Call for more details!
