Overview

20 acres of vacant residential land that is waiting for you to build your new dream house! County rules will allow for a barndominium and a shop, too. Well has already been permitted, drilled and tested but just needs you to finish the well with a submersible pump. Electricity has been run to the property and you have the convenience of setting up your little homestead. There is no proposed sewer system so you will need to do your own septic system. And the natural gas line has not been run to this lot but propane is easily available for setup. Call or text Mandy Allred at 307 37 15997 with Rocky Mountain Realty today!
