## Overview

FeatherStone Manor. All Stone home on 14.4 acres in a gated, lake/mountain community. Stunning home with spectacular views of the Yadkin River/Uwharrie National Forest. Magnificent exterior and interior details with custom woodwork and cabinetry, marble baseboards and window sills, decorator designed windows, a lower level rustic wine cellar and wine vault. Three slate floored porches lookout over the southern mountains and river and a large cypress pergola shades the summer sun. Two large front porches offer seasonal views of the lake. There are 5 landscaped levels including fire pit area, putting green and sand trap, small vineyard and target range. All levels are easily accessed by stairs or service drive (golf cart/UTV). Wildlife in abundance. The Springs community offers lake access (High Rock Lake - 2nd largest in the State), boat launch, slips, club house with swimming pool, hot tub, tennis and pickle ball courts. A rare find for the selective buyer.
