Overview

This 42.85 acre wooded parcel was landlocked by the construction of a new development that separates this tract from Hwy 27 when Norfolk Southern removed a railway crossing that served this property causing it to be landlocked in it's present state. However, owners are proceeding with legal process to reclaim and open their legal access. The property is being offered "as is" at this price. Once the new right of way is legally established, this price will drastically change. Contact us today for more information and buy it now, before the price increases.
