Overview

Presenting 5533 Ashlyn Drive, a custom built brick home on 1.69 beautifully landscaped acres located on a very private cul-de-sac in New Hanover County. There are two connecting all brick garages with a total of 6 bays! Yes you read that correctly, there are a total of 6 garage bays all recently upgraded with new epoxy flooring. The main house contains 1979 sq ft but there is an additional 781 sq ft above the four bay garage containing a recreation room with kitchenette and half bath plus a home theater. This additional sq footage could easily be converted to an in law suite. This beautiful estate home has 3 bedrooms, 2 full baths, a large great room with vaulted ceilings, open kitchen and breakfast room as well as a formal dining room. As you enter the home you will be greeted by beautiful hickory hardwood flooring throughout the public areas but you will also be amazed by how the home has been maintained by the current owners over the years. Consider just some of the amazing features you will find incorporated into this home, Whole house generator, hurricane shutters for all windows, LED lighting in the garages, full walk in attic over the 2 bay garage, new roof in 2022, water softener and Osmosis system, and a dehumidifier in the crawl. There are even diverters on the downspouts that allow you to manually determine which way the water will flow during

storms! No detail has been overlooked and you must see this unique property for yourself. The possibilities are endless.
