## Overview

Discover peace and tranquility at this luxurious custom built home situated on a private, park-like 6.8 Acres. Located north of Mahomet just a 20-minute drive from Champaign-Urbana, this home offers private views of nature from every room. Originally a builder's residence the current owner has made tasteful changes that have made the very best use of spaces, lighting, and cultivating a vibe that's hard to replicate and just as hard to articulate. Duplicating this level of quality, craftsmanship, and setting would be both an extensive and expensive process. In the morning, enjoy your coffee with a front row seat to both the sunrise and wildlife. The main level unveils a primary suite with large windows that takes advantage of sweeping forest views, provides a dual-vanity bathroom, tiled shower, soaking tub, and a walk-in closet. The kitchen offers custom cabinets, granite and stainless-steel countertops, as well as stainless steel KitchenAid appliances. The living room and family room are separated by a two-story wall with a dual-sided fireplace framed by a custom-made limestone surround. The main level also sports a dining room, a dinette, and a den/office that would be perfect for those wishing to work from home. And yes! Even the office has a view! The 2nd floor reveals three large bedrooms and two full baths. Descend to the lower level to discover two additional bedrooms, an exercise room, and a large recreation room where family and friends can gather or utilize it as

a guest haven with entry from both the main house and the garage. The outdoor tiered deck is perfect for entertaining or weekend BBQs. The zoned geothermal system is approximately six years old and does wonders to regulate indoor temperatures at a fraction of the cost of a conventional system. New roof in 2022. Enjoy the benefits of seclusion without sacrificing the modern conveniences! Come see for yourself!
