## Overview

Looking for a lake getaway or a place to call home? This ONE lot has the space of TWO lots in Twin Harbor. Seller can fit at least 8 cars in the driveway. This place already has installation under and above the addition side. It could be built for another bedroom or keep it as a flex space. If that is not big enough for you, you can extend the addition side up to 12 more feet. There are two window units, one in the camper is cooling and the one on the addition side is heating and cooling. So if you are looking for a getaway place or somewhere to call home, this may be the place for you!
