## Overview

All the charm of yesteryear but all the modern day updates we all want and need. This is a 3 bedroom 1 bath single level ranch located just .7 of a mile to beautiful Campground Beach on the bayside. Between 2017 and present day, this home has been renovated, updated and transformed with new features as important as the entire roof with 30 year shingles, gutters, downspouts, flashing and more. A complete new kitchen with stainless range, refrigerator, microwave range hood, dishwasher and stack washer/dryer. The electrical panel, outlets, switches, fixtures, dimmers, inside and out including GFCI protection. Central air conditioning was installed as well bulkhead doors and a poured concrete floor in the basement. The title v septic was installed in 2018 and just inspected with report available. Only one family has owned this wonderful property, it could be your year round home or cape escape. A pleasure and easy to show.
