Overview

Welcome to this truly ONE OF A KIND property. This elegant stylish, secluded and serene two-story, 5 bedroom, 4 bathroom, 3338 sqft house is set on the highest point of the 8-acre parcel and offers gorgeous views of Mt Shasta to the north and Lassen Peak to the east with bucolic privacy. This rare contemporary renovated farmhouse has been recently updated and refinished inside and out and features among other things, a custom new metal roof, beautiful and numerous custom aged barn wood, industrial and vintage accents all throughout the home as well as top of the line stainless steel appliances (such as Wolf range, Subzero glass door regular and wine fridges, Cove DW, a commercial freezer and LG signature W/D), amenities, walk-in closets and a walk-in pantry. The whole structure is inundated by natural sunlight through the numerous large and wide windows and French doors. A wrap-around porch and breezeway provide shade and easy access to the outdoors and to the pool/spa/fire pit area. Whole house fan and controlled central air/heat contribute to maintain a stable temperature all through the year around the friendly open floor plan downstairs and around the upstairs bedrooms with en-suite bathrooms and the spacious laundry area. FYI, one of the upstairs bedrooms has been converted into a state of the art dressing room. The gated and fully

wood-no climb fenced farm also includes 3 large pastures connected through 4 gates, 8 sheds for horses, cows, hay, tools, wood and pool, 2 chicken coops, a spacious goat enclave, a pond, a fenced vegetable garden with hand-made cedar raised beds, a fruit tree garden, a compost area and a rustic decor 588 SqFt two car garage. Connected to the Bella Vista Water district as an extra water supply option, the property possesses its own well with its built-in custom made chemical-free water filtration system and two 2500 gallons storage tanks with special built-in access for the Fire Department if need be. In case of an electricity black out, a powerful generator with its own large propane tank provides power to the whole house. The home is protected by Both, a 24/7 monitored alarm system and a Nest Surveillance/Security System of indoor and outdoor cameras that does record video and audio. Please refer to document included for more details about this property.
