## Overview

Sitting on 66 acres, Maple Brook Farm will charm you with its grand pastures and agriculture lands, chicken coops, fruit trees, and many other structures that complete this working farm including a large stable. With a 2-story barn and 4-bedroom cape house, this property has plenty for you to enjoy. Originally built in 1814, Maple Brook is older than the state of Maine which officially became an independent state in 1820. Much of the home's original charm still shines and is complimented with the modern updates and care put into it over the years. Today the Cape style home has 4 bedrooms, 2.5 bathrooms, Kitchen, Dining room with fireplace, living room, exercise room, mud room area (or as it was called in the 1800's, the summer kitchen). Many upgrades and efficiencies have been applied to the home including heat pumps, a new boiler system, wood boiler, new windows, and blown-in insulation. Across the grounds, the paddock areas and pastures are equipped with electric fencing and the large post and beam two story barn, with additional storage underneath, which was constructed around 1820 and still contains a piece of the original hay equipment. Maple Brook farm is located in the Lakes Region. Minutes away from the major lakes, Sebago, Long, and Thompson. Portland, and Jet port are approx. 50 minutes away. It's your time to make your own memories here at Maple Brook Farm! For all you who are practicing or soon to be veterinarian's this would be the

perfect place to set up your own practice!
