Overview

Ranch style home with 3 bedrooms and 3 full baths. There are 2 extra rooms in the finished basement but they do not have any exterior windows so they aren't classified as bedrooms, but leave plenty of room for guests or extra space. There is a room attached to the back of the home that was used as a craft room but it is not heated or cooled currently, however one could do so easily if they pleased. Garage is attached for 1 space, carport in the front for 1 spot and an extra carport by the basement entry on the back of the house for 3 total spots and room for more. There is a barn out back with space inside and a lean to on one side next to a storage shed and an extra storage shed in the front in front of the carport.
