Overview

This stunning home exemplifies luxurious living with the Colorado mountain vibe. Exquisitely designed with thoughtful details and quality through, you will find a spacious, open floor plan that seamlessly connects the living areas, main level primary suite and fabulous gourmet kitchen. This is easy living and the perfect home for entertaining! Stunning log beams and a massive stone fireplace grace the great room, while sunshine pours through the wall of windows that provide wonderful views. The heart of the home features a remodeled chefs kitchen with expansive countertops, breakfast bar and walk-in pantry. The main level primary suite is a true retreat with fireplace, luxurious bath and huge custom walk-in closet. Also on the main level is a dedicated office space. For entertainment, the lower level has a large rec room with spacious bar, cozy fireplace, and an impressive 8-chair theatre room. This walkout lower level has two additional bedrooms with walk-in closets, storage and a full bath. Outside you will find beautiful professional landscaping that offers a multitude of outdoor living options. From charming patios, large deck, fire pit, hot tub, rock outcroppings and fenced area, this fabulous 2 acre property has it all. Every detail in this gem has been carefully considered, from quality details such as Radiant in-floor heat throughout to the functional

layout that accommodates both privacy and social gatherings. This home is not just a place to live; its a retreat for relaxation, entertainment, and enjoyment in a picturesque setting. All of this in a beautiful neighborhood, high speed internet, and very quick access to Conifer amenities, metro Denver and many outdoor hiking trails and open space. Whether it's cozy nights by the fireplace, evenings of entertainment in the theatre room, or sunny afternoons lounging in the hot tub, this home offers something special for everyone!
