Overview

This house is first and foremost about the terrific back yard with its idyllic pool, entertainment area and wonderful mountain views, this is what desert living is all about. On top of that, it is in the intimate, 64 home, Mountain Gate enclave, inside Indian Wells Country Club, just inside the Manitou Dr. gate. At nearly 2,600 square feet It is comprised of three ensuite bedrooms plus a powder room, two casually comfortable living spaces one of which is open to the kitchen, a laundry room, and an attached three car garage. It's becoming more and more difficult to find a nice single-family home under \$2 million inside the much sought after, historical IWCC with all its varied types and styles of homes. Oh, and then there is the HOA at only \$90.00 per month.
