Overview

Looking for that One of a Kind property. This is just that with 111 acres ideal for recreation and hunting or just enjoying the outdoors. Lots of wildlife like deer, turkey, geese and ducks. There are trails running thru the property. There is a 3-car garage with a 1/2 bath, pole barn (power and water at barn) and pump house building. The 2 1/2 acre lake is just breathtaking looking out the back of home on the back deck (both the back and front porch deck new last year). New metal roof, doors and windows. There is a Generac power generator for the time that power may go off.
