Overview

Welcome home to this expansive top-floor, 3 bed, 2.5 bath residence in River Forest. This condominium lives and breathes like a single family home thanks to its intelligent layout of elegant hallways separating the generous living and sleeping quarters with an eat-in kitchen and in-unit laundry at the nexus of it all. The spacious living room is bathed in light from a central balcony overlooking the treetops and well-manicured courtyard grounds below and the formal dining room is easily capable of hosting large gatherings around the table. The primary suite with 4 sets of closets and a double-deep bathroom make for a sanctuary unto itself. The remaining two bedrooms are nearly as generously sized and share a full bath across the hall. Central air conditioning and heat are managed by two independent systems with additional ample closets found throughout. The home conveys with an indoor heated garage space and storage locker in this well-maintained elevator building. Located across the street from Concordia University Chicago, you will find easy access via Harlem Ave. to the shopping, entertainment, restaurants, and public transit in downtown Oak Park; as well as the I-290 Eisenhower Expressway connecting you to downtown Chicago.
