Overview

Welcome Home to this 5 bedroom 2 full bath renovated home on a large lot in a rural setting! (septic permit requested but not yet received). Step inside the living room with a cozy fireplace and enjoy how the floor plan wraps around through the dining area to the kitchen without being able to see the kitchen from the front door. Featuring granite countertops and new appliances, you'll find all the qualities you need for your next move-in-ready home! The primary room is a generous size with an en suite bath with a tiled shower and tile flooring. Home has had the windows and the roof replaced in the last few years. There is also a new well for this home as it was previously on a shared well. In addition to all of that, enjoy the unfinished basement as storage or workshop space or turn it into the flex space of your dreams! With a covered rocking chair front porch and a back deck, you can sink into relaxation outdoors through any part of the day.
