## Overview

This is a unique and ready for occupancy condex in a very popular association. The ground floor level has a cathedral ceiling in the living room giving it an open and comfortable feel, an updated kitchen with laundry, and a dining area as well as a half bath. Upstairs are two bedrooms both with cathedral ceilings as well as a full bath. This development has been very active, and this unit stands out! There is a generator hook-up just in case, a detached garage with plenty of storage above, and it's close to everything you need. Easy to show and ready for a new owner.
