## Overview

Great opportunity to have a little farm, build that dream home or just have for recreational use. Small cabin to camp in or use while building. Highway frontage with several interior trails/dirt roads. Kitchen Creek crosses over the back third of the property. There is a nice pond that is about 12 foot deep. There are several other outbuildings for storage. The fruit trees include apple, pear, peach, plum, fig and cherry. There are also about 100+ blueberry bushes and muscadine plants. There are several areas that are cross fenced to help keep the wildlife out of the fruit.
