Overview

This pristine, custom built home offers everything you have been searching for, nestled on a picturesque 2-acre lot with breathtaking views of nature. Thousands of native perennials, numerous bushes, and trees create a serene and tranquil environment. Spend your summer months relaxing in the saltwater pool, or enjoy a leisurely lunch in the pool house. The main house boasts over 9, 000 square feet of living space across three floors. The spacious living room and dining room overlook the lush lawn, while the fabulous kitchen, complete with a butler's pantry, is updated with modern amenities. It features a large eat-in area and direct access to the new TREX deck. The family room, with its cozy fireplace, includes a second staircase leading to the second floor. The sunroom, filled with natural light, could also serve as an ideal home office. The master suite is a luxurious retreat with a fireplace, walk-in closet, new jetted tub, and a new shower with tile surround and glass doors. The vanity includes dual sinks and drawers for added convenience. Two additional bedrooms and an updated bathroom are located on the second floor. A first-floor bedroom with an updated bathroom provides additional flexibility and convenience. The full, finished basement is perfect for gatherings, with a fully equipped kitchen, a large TV room, a game area with a pool

table and a custom mural. There is also convenient access to the basement from the three-car garage. The home features three HVAC zones, radiant heat throughout, one boiler, three furnaces, and three A/C units, ensuring comfort in every season. The beautifully landscaped yard includes three arbors, lannon stone steps, an irrigation system, and a sandbox. The property adjoins a conservancy, enhancing the sense of privacy and connection to nature.
