Overview

GPS 28208 N 213th Dr. This home is 2 houses north. Situated on a dead end, 1.12 acre canvas of potential, this brand new home is a blank canvas waiting for your personal touches. With 2, 142 square feet of living space, it is the perfect blend of comfort and sophistication. Need space for your toys? This home boasts an attached 55X13.6 foot RV garage, so your RV, LQ or toys will easily fit here. Upon entering, you will encounter high-end touches such as elegant quartz countertops, crown molding, 5" baseboards, sleek tile wood-like floors, and modern fixtures throughout. Entertain in the open-concept living space where the gourmet kitchen is the heart of the home. Equipped with stainless steel appliances, ample counterspace, a separate walk in pantry, and a ton of storage space, culinary delights are just waiting to be created. Your primary bedroom is split with an ample bathroom that includes dual sinks with quart countertops, a curbless shower and separate soaking tub, and large walk-in closet. Outside, let your imagination run wild. Whether you are dreaming of creating an oasis with a sparkling pool, shade trees and gardens or a mare motel and loping arena, it's right here waiting for you. For the energy conscious Buyer, the ceiling has foam insulation equivalent to R16 and it keeps the bugs and dust out. Concerned about the leach field location? This septic

system has a vertical leach field so you don't have to worry about where the lines are when you are installing your dream pool or mare motel. And, this is synthetic stucco so you never need to paint it. There is a complete list of features under the document tab in the MLS that is available to the public. Hurry and make this home your own.
