Overview

INTRODUCING TBC VILLA ESTATE 2 AND WHY YOU SHOULD INVEST IN IBEJU LEKKI. All our landed properties are located in Eti osa and ibeju lekki local government area of Lagos. Why we positioned towards ibeju lekki is because of development happening in the area. 1.Lekki free trade zone is presently in the local government and what Nigerian stands to gain from this project which is on going is that we can export our local products with little or no charge. It will promote local content. It will increase the economy of Nigeria that is our GDP. 2.The Dangote Refinery. You are aware that 60% of our economy depends on oil and the emergency of the refinery will make us export crude oil and save our forex, the pressure of dollar will reduce and it will increase our foreign reserve and this refinery will be operating 2019. All this investments are already bringing foreign investments in ibeju lekki, there is a need to solve problems like accommodation for workers in this place, schools for children, companies that will operate there, workshops for repairing Trucks, Shopping Malls. Once the refinery starts there will be steady power supply.
